

Useful shop and manufacturer websites (Aug 2019)**Instrument makers and instrument manufacturers**

The relationship between musical instrument companies, manufacturers, and brands is complex. An example is Buffet Crampon: this French company used to have its popular Buffet B12 clarinet made by a separate company (Keilworth-Schreiber) in their German factory, so although Buffet Crampon manufactured clarinets in its own factory in France (such as the R13 clarinet) it did not actually manufacture the B12 model (in 2011 Buffet Crampon bought Keilworth-Schreiber so it does now manufacture the Buffet B12).
