Armstrong Flutes

In 1931, William Teasdale Armstrong, a highly respected craftsman and a C.G. Conn shop foreman, founded his small flute repair shop in Elkhart, Indiana. Word of his skill and uncompromising commitment to quality quickly spread, and it wasn't long before he was asked to manufacture instruments for professional musicians.

The proud Armstrong heritage passed on to son Edward, who apprenticed under his father and shared his father's attention to detail regarding quality. Edward's concern for quality went well beyond the crafting of professional level instruments. He recognized a need to provide quality instruments to a rapidly growing number of students and community musicians.

In the 1970s, Armstrong developed a "new" flute scale in conjunction with Albert Cooper. Prior to this new scale, flute makers would correct the tuning of A=435 commonly found on flutes by cutting the end of the headjoint to bring pitch up to A=440. While this served to correct the pitch in the center registers, all other octaves did not play in tune. Armstrong and Cooper collaborated together to create a whole new flute with improved performance. Changes would include a tapered headjoint, alterations to dimension of tone holes and tone hole placement. This redesigned flute would become today's 102, 103, and 104 model flute platforms.

In 1984, the Armstrong woodwind company was sold to King Musical Instruments, which later merged with C.G. Conn in 1985 to form United Musical Instruments (UMI). UMI later merged with the Selmer Company in 2002 and created Conn-Selmer, Inc

Armstrong Serial Numbers

Serial Number	Date
Prefix "24" Series	1974
Prefix "3" to "9" Series	1973
Prefix 1,2,3, etc.	mid-1972
Prefix "V" Series	1972
Prefix "R" Series	1970
Prefix A,B,C (minus H, I, O, Q, W, Y & Z)	1965
18,000 - 67,000	1949-1965

Note: From 1974 to present - The prefix number plus 50 will give you the date manufactured.

For example: Serial# 24-58637 = 24 + 50 = 1974

Artley

CALICCHIO SERIAL NUMBERS

1927-1947 Numbers 1,000 to 1,300
 1947 on 1,400 to about 2,600
 At time of Dominic's Death (1979)
 Serial numbers are not necessarily consecutive

BUESCHER/BUNDY

This list includes Bundy saxophone starting in 1952, Bundy and Mercedes sousaphones to date. This does not include student instruments produced under the Eckhart label by Buescher. The first Buescher horns were manufactured in 1888. Serial numbers up to approx. 4000 were produced prior to the fire at the Buescher plant in 1903, when all files were destroyed. Serial numbers were started at 5000 in the new building in 1905.

1986	221244 - 240141
1987	240142 - 261465
1988	261466 - 273178
	3811713 - 3821881

From 1988, the prefix number plus 50 gives you the date of manufacture.

KING & H.N White Saxophones

The serial numbers listed on this page end when The H. N. White Company was sold in 1965. After 1965, all instruments were manufactured in Eastlake and engraved with "King Musical Instruments."

Special Note: Please keep in mind that model changes might not have been made to all Saxophones in the production line and may not be respective of the true age of your instrument.

Date	Serial Number
1893-1915	1-50,000
1915-1925	50,000-78,000
1925-1930	78,001-126,000
1930-1935	126,001-161,000
1935-1940	161,001-220,000
1940-1945	220,001-275,000
1945-1950	275,001-305,000
1950-1955	305,001-340,000
1955-1960	340,001-370,000
1960-1965	370,001-406,500
1965-1970	406,501-457,600

For more detailed information on King and many other saxophones visit www.saxpics.com.

Historical Information on Fox and Renard Bassoons

This list is useful as an approximate guideline for the age of Fox and Renard bassoons and oboes. Information concerning specific instruments can be obtained directly from Fox Products.

Serial numbers are assigned early in the production process and do not necessarily reflect the shipping dates. The number indicated for each year represents the serial number of an instrument shipped at the beginning of that year. Nearby serial numbers may have been shipped a couple of months sooner or later.

Both Fox and Renard bassoon use the same sequence of numbers. Fox and Renard oboes and Fox contrabassoons each use their own serial number sequences.

Leblanc (France) took over the company in 1971. They also used the Martin name to sell Yanigasawa built saxes as well as marketing **Vito** and **Yanigasawa** instruments.

SELMER (PARIS) CLARINETS

There is no definitive information available as to when particular types of instruments, such as the Model 55, the Radio Improved, Balanced Tone, etc., began insofar as serial numbers is concerned. Unlike some of the saxophone models, each clarinet is clearly marked as to its model.
